Professional Summary

Business Analytics Master's graduate skilled in Power BI, SQL, Python, ETL, and KPI reporting. Built dashboards, pipelines, and product analytics across banking, marketplace, and AI mobile projects. Seeking Business Intelligence, Product Analytics, or Growth Analytics roles.

Education

Esprit School of Business Tunis, Tunisia
Master's in Business Analysis, Data Analysis & Data Science July 2026

- Completed an Ai4U/ESPRIT capstone using CRISP-DM, Scrum, mobile deployment, and Power BI.

Esprit School of Business Tunis, Tunisia
Bachelor's in Business Computing, Business Intelligence 2024

- Studied database design, ETL, data warehousing, reporting, and dashboard development.

Technical Skills

BI	Power BI, Excel, SQL
Databases	PostgreSQL, MySQL, SQLite
Programming	Python, HTML, CSS, PHP
Data & ML	Pandas, NumPy, Scikit-learn, TensorFlow
Development	FastAPI, Flutter, Docker, Git/GitHub
Methodologies	Agile Scrum, CRISP-DM
Analytics	KPI design, ETL, dashboarding, data visualization

Professional Experience

Sana3ty Marketplace Platform – Growth & Analytics Infrastructure Remote
Analytics Contributor May 2025 – Present

- Designed marketplace KPIs for acquisition, provider activity, engagement, service quality, and operations.
- Built analytics-ready data models and reporting logic for marketplace KPIs and user behavior.
- Used performance insights to support positioning and generate 300+ pre-launch engagements.
- Defined tracking requirements and reporting priorities with product and development teams.

Ai4U Research Unit Tunis, Tunisia
Business Analytics & AI Project Intern Feb 2026 – May 2026

- Defined 13 user stories, product KPIs, and a CRISP-DM/Scrum delivery plan with stakeholders.
- Built a Power BI dashboard highlighting user behavior, recommendations, engagement, and dermatologist access.

BNA Bank, National Agricultural Bank Tunis, Tunisia
Data Analytics Intern Feb 2024 – May 2024

- Automated weekly ETL for 50,000+ transactions, cutting reporting time by 60%.
- Built Power BI dashboards used by three departments for operational and financial KPIs.
- Identified trends and inefficiencies, saving 15+ reporting hours monthly.
- Presented actionable findings to senior management.

End-of-Studies Master Project

Vistasy – AI Skin Analysis Mobile Application Feb 2026 – May 2026
End-to-end AI mobile product and analytics capstone

- Trained EfficientNetB0 on 13,700 images across seven classes, achieving 95.7% test accuracy.
- Built a Flutter/FastAPI pipeline integrating CNN inference, medical RAG, weather context, products, and doctors.
- Containerised and deployed the system on Railway; passed 13 API and Android tests.

Additional Projects

Animal Classification System using CNNs Dec 2025
github.com/Athenwine/Pi-animal-classifier

- Trained a TensorFlow/Keras classifier for 10 animal species with 90%+ validation accuracy.
- Improved reliability through preprocessing, augmentation, validation splits, and evaluation.

Spotify Music Trends Analytics Platform

Feb 2025 – Apr 2025

github.com/Athenwine/spotify-pi-project

- Built a PostgreSQL/Python analytics pipeline for 10,000+ tracks.
- Created Power BI dashboards for audio features, artists, and five-year trends.

Django-Based Quiz Management Platform

Dec 2025

github.com/Athenwine/ESB-QuizAPP

- Built a Django quiz platform with authentication, automated scoring, and role-based access.

Certifications

- Aviatix Certified Engineer – Multicloud Network Associate (ACE), Dec 2025.
- Cisco Networking Academy – Ethical Hacker, Dec 2025.
- NVIDIA Deep Learning Institute – Generative AI with Diffusion Models, Predictive Maintenance, and Anomaly Detection, Dec 2025.
- IBM Cognitive Class – Data Science Tools, Dec 2025.

Volunteering & Leadership

Enactus

Tunis, Tunisia

External Relations Member

2020 – 2021

- Supported partnerships and outreach for social entrepreneurship projects.

Croissant Rouge Tunisien – Bizerte Branch
